TO WHOM SO EVER IT MAY CONCERN

We had procured VENTECH Centrifugal Process Blowers for use with main Rice Plant Machinery of M/s. Satake Corporation, JAPAN and are pleased to confirm that the Blowers supplied by M/s.VENTECH SYSTEMS PRIVATE LIMITED, DELHI have since been working satisfactorily after installation and are giving the desired performance.

We are quite happy with the prompt services and deliveries of VENTECH and the technical support provided by them.

Based on their performance, we have no hesitation in recommending VENTECH BLOWERS to the plants using SATAKE Machines.

For Murlidhar Rice Mill
