We handle AIR with care...

GIVE YOUR ENVIRONMENT
AN AIR OF LUXURY...

The journey so far

A history of performance

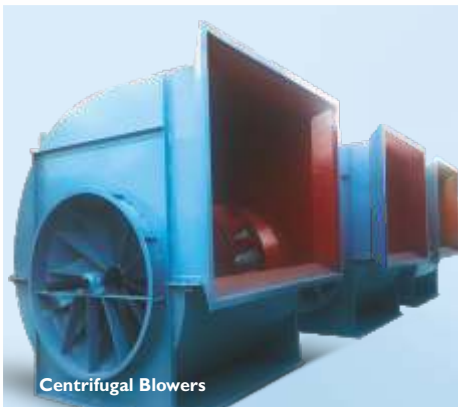

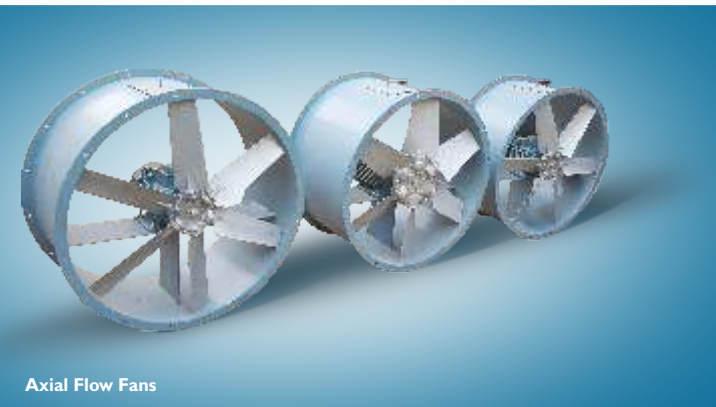

SINCE 1997 WORKING WITH DEDICATION HAS BEEN A BREEZE..

VENTECH SYSTEMS PVT. LTD., a pioneer in Air Engineering Systems namely : Ventilation, Air Conditioning & Air Pollution Control Systems is an **ISO 9001 : 2015** certified company started in 1997 with a sole purpose to cater to the precise needs of a wide array of Industrial applications.

Thanks to the commitment, untiring efforts and broad vision of **Mr.V.K.ARORA** , a stalwart in the field of Air Management Systems and his entire team that over the years VENTECH has grown into a company whose know – how and technology makes it a reliable partner in the sector of HVAC and Air Pollution Control projects. On the strength of its values of commitment, reliability and competence, the company offers its products and services across the length & breadth of Indian subcontinent apart from extending its roots in the international market. The journey so far has definitely been – a history of excellent performance....

We have had the privilege of serving Industries across various sectors and have successfully built a reputed client base over the years. Our liasoning with the leading Professionals, Architects, Consultants by way of participating in exhibitions / conferences under the aegis of ISHRAE, ASHRAE, AMCA or even otherwise helps us to become aware of the upcoming projects on the anvil and we accordingly keep on updating our Products / Systems.

We are recipients of **Bhartiya Udyog Ratna Award** from Council for Economic Growth & Research, Mumbai.

Adding Newer
Dimensions to
Industrial Ventilation
and
Air Conditioning

Our manufacturing range includes the followings:-

- Normal and Fire Rated Axial Flow Fans are further categorised into the followings:-
 - Supply and Exhaust Fans
 - Industrial Man coolers
 - Green house Fans
 - Centrifugal Blowers viz. Forward and Backward Curved - ID / FD Applications
 - Kitchen Scrubbers
 - Ventilation Units
 - Air Cooling Units viz. Single Skin and Double Skin
 - Dust Collectors viz. Cyclone Separators, Bag Filters and Scrubbers
 - Rotary Airlocks
 - Air Handling System Accessories like Pre-Filters, Fine-filters, Ducting, Auto - Viscous Oil Filters, Air Distribution Products like grilles, diffusers, dampers, eliminators, etc.
- Roof Extractors
- Bifurcator Fans
- Mine Ventilation Fans

We design and build the following systems on turn-key basis:

- Pressurization and Ventilation.
- Evaporative Air Cooling
- Dust Extraction And Collection
- Fume Extraction And Scrubbing
- Fresh Air Supply and Exhaust without scrubbing
- Kitchen Ventilation
- Forced draft Ventilation / Motor Cooling and Mill Hood Exhaust in Steel Plants and other process industries.
- Lean Phase Pneumatic conveying
- Air-conditioning for industrial / commercial applications

CORE VALUES & BELIEFS

Value Driven	Integrating strong Organizational values with all business activities
Excellence	Always doing what we say we will
Networking	Meeting, Communicating, Collaborating, and Partnering
Teamwork	Encouraging innovation, creativity and experimentation
Expertise	Creating technologically superior and Custom-Engineered products
Customer oriented	Delighting customers and believing in the philosophy of 100% customer satisfaction
Honesty	Maintaining the highest integrity at all times

Why VENTECH?
because we are

Tried & Trusted

Why VENTECH?

- Provides a unique basket of products and clearly superior performance .
- Executing turn-key projects right from Concept to Commissioning viz. design and engineering, manufacturing, supplying, installation, testing and commissioning is our forte.
- Successfully executed projects are testimony to VENTECH's attention to all phases of a project's life.

Experience

- More than 200 man years of cumulative experience in the field of Ventilation, Air Conditioning and Air Pollution Control.
- Workforce comprises of Highly qualified management team, supported with dedicated & vastly experienced team of Sales & Project engineers, skilled in - house Technicians and Skilled Contractors. The In - house Design, Consultancy & Marketing set-ups are duly backed-up with fully equipped State - of - the - Art manufacturing facilities.

Our Philosophy

Our Aim has always been to supply Products & execute Projects with the best available resources in the market and render fullest satisfaction to the end users. We realize the fact that customers are vital and most important assets and supreme to our success.

Mission

We strive to give you the atmosphere you desire - each and every time, for all the time.

Vision

“To be recognized as a respected leader in the field of Industrial Ventilation, Air Conditioning & Air Pollution Control Systems through relentless pursuit of strategies for developing & delivering Cost-effective, Sustainable & Customized Air Handling solutions.”

Quality Policy

Quality in our work means quality in people's lives. This is our responsibility and the essence of our commitment in our own small way, with your help; we can achieve great things for our planet and for the quality of life. To achieve this, we operate in accordance with relevant International standards, which certify our Technical and Organizational competence and efficiency.

- Certification of Quality system in accordance with ISO 9001: 2015 standards certified by ANSI accredited body.
- Company certification in conformity with CE Regulation.
- AMCA Certified fans for air and sound performance in accordance with AMCA Standards 210 and 300 .

"quality means doing it right
when no one is looking.
quality is our obsession
and service is our passion"

After - Sales Service

All of our installations are backed by prompt after - sales service during & after the guarantee period. We have qualified service engineers & Technicians to attend to any break-down during & after the guarantee period. We offer quick services with accurate and prompt response as the job demands.

VENTECH also undertakes retrofit projects for ageing installations.
